

The One & Only Plaster Pump Designed For Pool Plastering

Excalibur Hydra Exclusive

Completely Hydraulic PUMP and mixer system
Deck mounted, infinite pump speed control
Bent push rods are now history
Full spout, splash free mixer stays clean
Huge 15.6 cubic ft. hopper
Full-size bearing flaps for maximum protection
Protected hydraulic hoses for your safety
Pump designed specifically for pool plasterers

Competitor's Rigged Pump

Gear-box, clutch & pulleys lack user control
Manual speed adjustment required with pump off
Bent push rods are common
1/2 spout mixer causes heavy cleanup
Inadequate 9 cubic ft. hopper
Smaller mixer shaft & bearing flaps
Mixer hoses exposed on platform
Stucco pump rigged for plastering pools
