

American Made Spray Equipment

Plastering · Fire Proofing · Drywall · Finishing

Introducing The Industry's First Major Advancement In 50 Years...

EXCALIBUR HYDRA SR MOBILE

The revolutionary new EXCALIBUR HYDRA SR MOBILE is the plaster industry's first *fully hydraulic* plaster pump, capable of pumping all varieties of plaster, stucco, fire proofing, and EIFS. Replacing the gear box, the hydraulic motor's built-in bypass valve virtually eliminates pressure-related equipment damage and maintenance accidents, saving you time and money! Advantages include:

- Infinite separate controls for mixer and pumping unit allowing variable RPM control while maintaining maximum horsepower
- Helically designed cast mixer blades for the fastest splash-free mixing in the industry
- Convenient maintenance items — oil filter replacement indicator and engine hour meter
- Easily pumps in excess of 500 ft of material hose
